

New Product Introduction

March 29, 2011

**Micro Coaxial Connector CS Series:
 Compact Space-Saving Design with 0.25mm Pitch**

For board-to-micro coaxial wire

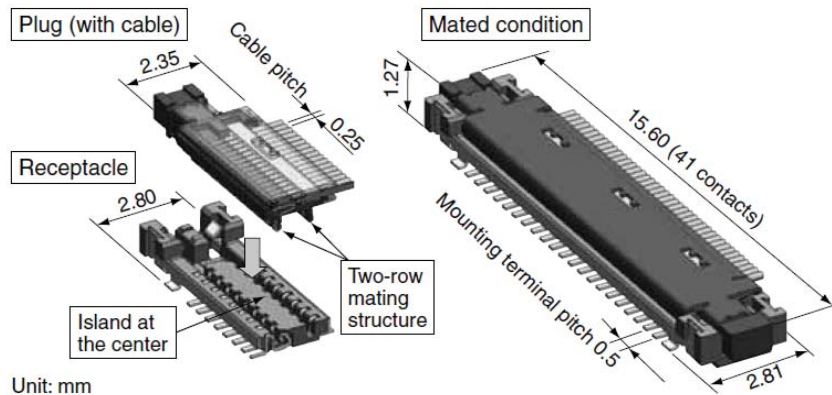

Plug

Receptacle

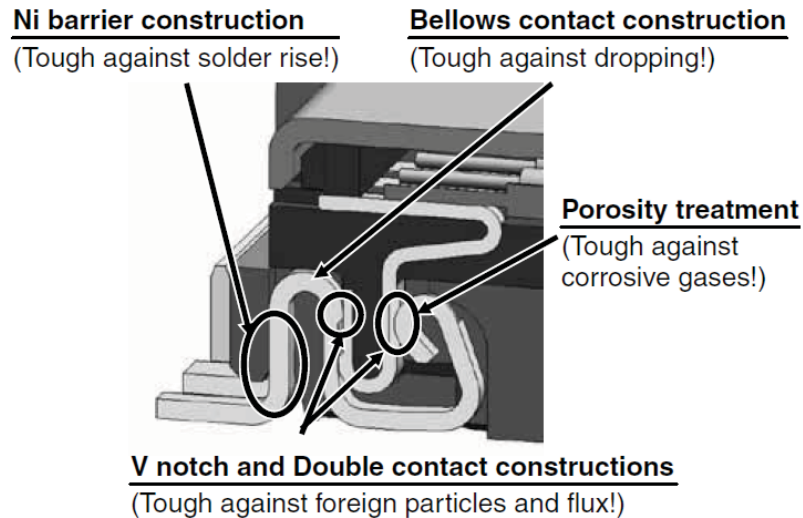

RoHS compliant

1. Features:

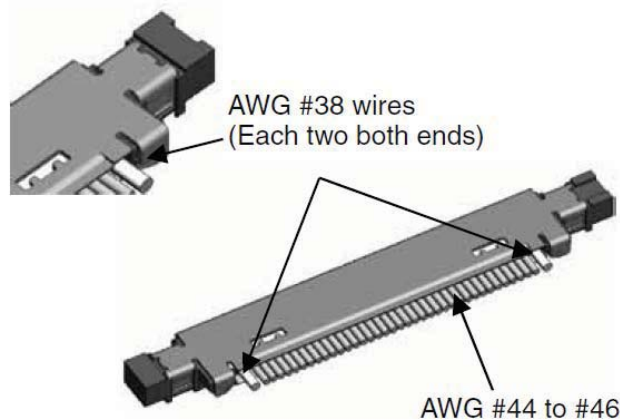

- **The 0.25 mm cable pitch reduces the required space.**
 The two-row mating structure ensures insertion reliability.
 The center island is resistant to problems related to mating with, such as mating with the plug/receptacle displaced.

- **Highly contact reliable “Tough Contact Advanced” construction adopted to ensure high resistance to various environments.**

- **Compatible wires: Coaxial AWG#44 to #46 (outer diameter:0.25mm or less), AWG #38 (outer diameter: 0.32mm or less, the #38-compatible plug only)**

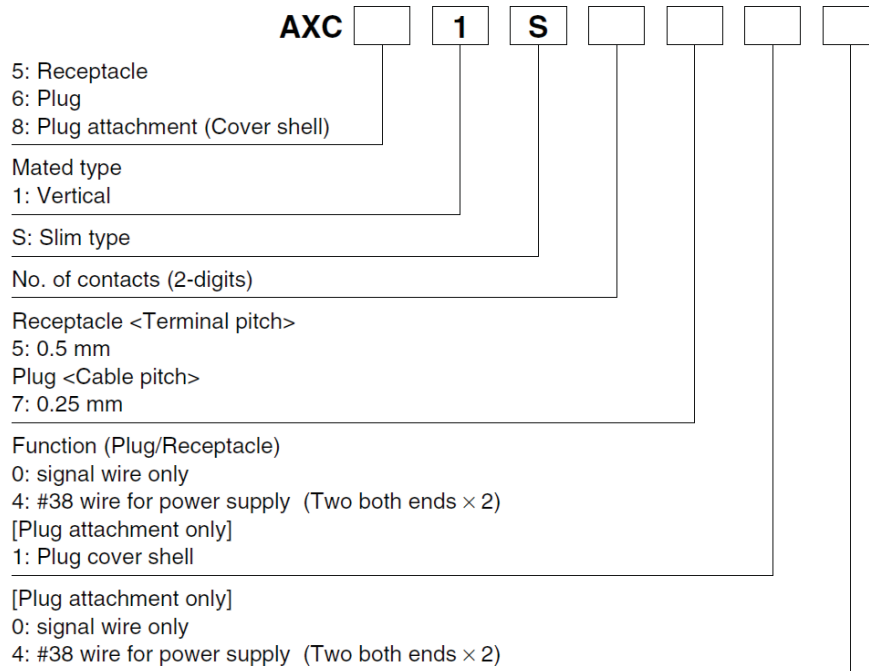

2. Applications:

- Hinges with a complex shape of compact, high-and multi-functional portable devices and internal connections for high-speed transmissions.

3. Availability: March 2011, production basis.

4. Ordering Information:

5. Technical Information: PDF datasheet is attached.
