

VEEK-MT2-C5SoC **Upgrade Kit**

Quick Start Guide ▶▶▶

1 What's in the Box?

- 1 Multi-Touch LCD and Camera Module
- 2 Acrylics for SoCkit
- 3 Upgrade Kit Quick Start Guide
- 4 Screw and Copper Pillar Package
- 5 HSMC Cable

2 Resources

1. For System CD and Linux BSP for this package, please download them from below:
<http://veek-mt2-c5soc.terasic.com/cd>
System CD for the motherboard C5SoC is "Altera C5SoC CD-ROM"
System CD for the touch screen MTL2 module is "VEEK-MT2-C5SoC CD-ROM"
2. For example designs of the touch-screen module and camera, developers can refer to the document VEEK-MT2-C5SOC in the User Manual
3. The content of the "VEEK-MT2-C5SoC CD" is shown below:

Directory Name	Contents
UserManual	User manual for this package
Demonstrations	FPGA design examples for the touch screen module MTL2
Datasheet	Datasheet of major components used in touch screen module MTL2
Schematic	Schematic of touch screen module MTL2

3 Assembly

1. For more information about the assembly of VEEK-MT2-C5SoC, please download the document "VEEK-MT2-C5SoC Upgrade Kit.pdf" from the website below
<http://mt2-c5soc-upgrade.terasic.com/cd>
2. After the assembly is complete, please execute the camera demo included in the "VEEK-MT2-C5SoC" CD-ROM to confirm the upgrade kit is connected properly. The camera demo will display the image captured from the camera on the LCD. Users can trigger the auto-focus function by touching the LCD.
